**Spring 2023 Live Online CC-P® Prep Programs**  
*Updated (March 30, 2023)*

The Association of Climate Change Officers (ACCO) offers live online training programs designed to help participants build competencies to effectively integrate climate change into their decision-making and professional activities. This series provides participants with training in a peer cohort environment that will prepare them for the [Certified Climate Change Professional® \(CC-P®\) credential](#) and [CC-P® Candidate](#) exams by leveraging a combination of video homework, live training and interactive exercises/discussions. The curriculum has fully updated through the development and impending publication of the CC-P® Study Guide in Spring/Summer 2023.

Participants will learn about the implications of climate change, and related opportunities. In addition to climate change and sustainability practitioners, the curriculum has been designed to benefit professionals worldwide across a broad range of occupations in the public and private sectors, higher education and the NGO community.

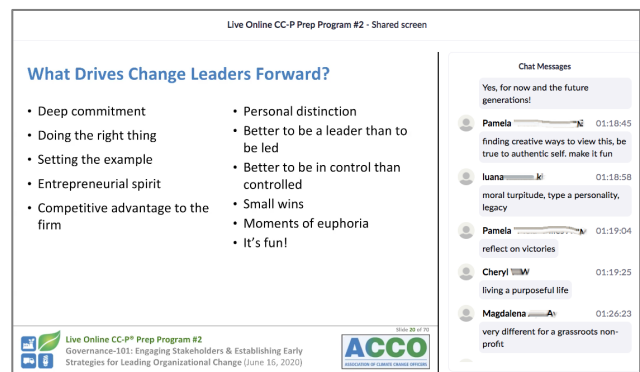

**Delivering Value**

Key Skills and Competencies Addressed	Live Online Program Features
<ul style="list-style-type: none"> <li>Recognizing climate change impacts and implications on an organization’s operations, mission and bottom line</li> <li>Applying enterprise risk management to climate change</li> <li>Managing short-term and long-term uncertainty</li> <li>Tailoring communication to different audiences</li> <li>Leading and supporting organizational change</li> <li>Understanding resource consumption and systems implications</li> <li>Assessing the policy landscape and developing an action plan</li> <li>Collaborating with peers to tackle real-world challenges</li> </ul>	<ul style="list-style-type: none"> <li>A blend of self-study resources and live online instruction courses</li> <li>Case studies from practitioners and insights from fellow CC-P® professionals</li> <li>A program structure designed to guide you through the certification exam and application process</li> <li>The opportunity to expand your network by connecting with fellow attendees</li> <li>Assignments that help reinforce program sessions</li> <li>Sample test questions</li> <li>Real-time Q&amp;As with instructors and facilitated discussions among participants</li> </ul>

# Online CC-P® Prep Programs

A Series of Live Training Programs

[ClimateOfficers.org/online-prep](https://ClimateOfficers.org/online-prep)

**Important Note:** The following schedule applies to the live training portion of the CC-P® Prep Program. The week prior to each class, there will be 30-60 minutes of self-study/homework video content assigned that will be foundational/pre-requisite content to the classes. It is important that participants watch these materials prior to attending live classes.
